Some people may say Mice, others may say Rats Rats are amazing pets and are very loyal.. Here are MY reasons why Rats make such wonderful, furry pets Here is my downsides for pet Rats: > The cost of bedding > The size of the cage you need (can be costly) > Toys / Accessories (ex: Igloos, hammocks) are a little more money (since they're bigger) Depending if you get high-quality food or not, that can add up to quite a bit of money as well..
